

# Hackbridge Green Business Network

## FREE WORKSHOPS ON WINNING LOCAL WORK

A series of workshops and networking events for local businesses provided by sustainability experts, BioRegional.

### Hackbridge eco-development

**Thurs 19th May 2011, 5.45pm**

Are you a business in Sutton that supplies or is interested in supplying to the housing and construction sector? Hear from developer and social landlord Affinity Sutton on:

- The procurement process for suppliers
- How going green can win you work

### Sutton procurement

**Thurs 23<sup>rd</sup> June 2011, 5.45pm**

Are you a business that supplies or is interested in supplying to Sutton Council? Get ahead of the game by finding out more about their procurement process. Also discover what you can do to reduce your impacts through what you buy as a business.

## Summer drinks

Join us for a summer drink and celebrate 1-year of 'Greening businesses in Hackbridge'.

**Wed 20<sup>th</sup> July 2011. Location TBC**

Unless specified, all workshops are at BedZED Centre, 24 Helios Road, SM6 7BZ. Please RSVP to stay up-to-date with any changes to the events programme.

To confirm your attendance, please contact Ben Gill  
020 8404 4897 or [ben.j.gill@bioregional.com](mailto:ben.j.gill@bioregional.com)

## What is Greening Businesses in Hackbridge?

A free service helping local businesses protect the environment and save money. The project is funded by the London Borough of Sutton and the European Regional Development Fund, and the workshop is being delivered by Hackbridge-based charity BioRegional.

## How does it work?

The project offers:

1. **Free Audits** – one-to-one consultancy from BioRegional, finding creative ways to save both resources and money in your energy, water and transport use, and waste production.
2. **A Network** – the Hackbridge Green Business Network is a group of forward thinking businesses that share a vision of a sustainable future and want to lead the way in making it happen. Offering promotional and collaboration opportunities.
3. **Free Workshops** – ten free workshops providing support to businesses in becoming more sustainable and enabling businesses to network, share resources, and explore opportunities to supply and procure locally.

## How do I get involved?
